This document is intended only as a guide and, as no picture can accurately convey colour representation, it is suggested you examine our products personally before purchase. Only then can you appreciate the detail of each and every component, the finishes applied and the superior quality. If your chosen finish is not on display, we recommend that you order a sample.

Introducing Haven & HBH Woolacotts

ABOUT HAVEN KITCHENS

Founded in August 2024, Haven Kitchens is proud to be a part of the HBH Woolacotts family, bringing exceptional kitchen design and quality to homeowners across Cornwall and Devon. While we are a young brand, we are backed by over 50 years of industry experience and the trusted reputation of HBH Woolacotts.

With four beautifully designed showrooms across the region, we offer a unique approach to kitchen design, focusing on how you live and use your space. Whether you're looking for a kitchen that blends style with function or a bespoke, handcrafted design that's as individual as you are, our expert team ensures every detail reflects your vision.

Our three distinct product ranges, all made in the South West, cater to a variety of tastes and budgets without compromising on quality. From stylish, affordable options to contemporary fitted kitchens or luxurious, handmade masterpieces, we deliver solutions that fit your needs perfectly, always prioritising quality craftsmanship and design.

We understand that finding the right installers can be daunting, so we work with a network of trusted local tradespeople on a referral basis, ensuring you receive the highest standard of service. Whether you need a simple dry-fit installation or a complete remodel, we'll connect you with the right professionals for your project.

At Haven Kitchens, we believe that a kitchen should be a space that brings joy, functionality and beauty to your home. Our goal is to make the process seamless and enjoyable, helping you create the kitchen of your dreams with confidence and ease.

ABOUT HBH WOOLACOTTS

Founded in 1976, HBH Woolacotts is a local, family-run business that specialises in selling and servicing household electrical products. We have nine shops throughout Cornwall and Devon, including the UK's first Panasonic Store and Plymouth Sony Centre which are now incorporated within our Plymouth superstore.

From TVs to kitchen appliances, washing machines to vacuum cleaners, we offer a huge range of electricals as well a full selection on complimentary accessories and services. We also offer free delivery in Cornwall and Devon, unparalleled after-sales support and a range of competitively priced installation and repair services.

We understand that you want to be looked after and our goal is to ensure that all our customers receive the service they deserve.

We're always 'Happy to Be Helpful'!

THE BEST OF BOTH WORLDS

At Haven Kitchens, we believe the kitchen is the heart of every home. A beautifully designed space is essential, but it's equally important that your kitchen is functional and tailored to how you live. One key aspect often overlooked by many kitchen retailers is the choice of appliances— yet these are vital in ensuring you get the very best from your kitchen. That's where we stand apart. As part of the HBH Woolacotts family, we offer a unique advantage with the largest combined kitchen and appliance showrooms in the South West, making us the number one destination for anyone considering a new kitchen project. With our expansive 'Kitchen Centre' concept, we offer a seamless blend of top-tier kitchen designs and the best appliances on the market, all under one roof.

Our team's extensive expertise spans both kitchen design and electrical appliances, ensuring you receive a comprehensive service. We take the time to understand your vision and work closely with you to ensure every detail - from the layout to the appliances - is carefully considered, so you can truly make the most of your kitchen.

📍 Plymouth

Our flagship Plymouth showroom is on the first floor of HBH Woolacotts' Electrical Superstore on Coypool Retail Park in Plymouth. Located just off the A38 at Marsh Mills and with ample on-site parking, our showroom is both convenient and accessible.

Once inside, you'll discover a collection of distinct, fully-designed show kitchens that highlight the exceptional quality of our materials and craftsmanship, along with one of the largest selections of appliances and kitchen accessories in the South West.

Whether you're after a budget-conscious fitted kitchen or the ultimate design for your forever home, our team is ready to bring your vision to life. From timeless traditional country kitchens to sleek contemporary masterpieces, we design kitchens tailored to your exact needs.

We have a team of experienced designers available in-store or by appointment who can provide expert guidance through the design process, and with our demo kitchens and range of samples, you'll be able to see, touch and feel everything, ensuring confidence in the final result.

📍 St Austell

Located on the outskirts of St Austell, our showroom is on the first floor of HBH Woolacotts' Electrical Superstore at The Valley Retail Park.

With ample on-site parking, our showroom is both convenient and accessible and allows customers to browse a huge selection of kitchen displays and household electrical products at their leisure.

Our stunning display showcases a variety of materials, designs, colours and textures to help you envision your dream kitchen. Whether you're seeking an affordable, stylish fitted kitchen or a bespoke, handmade masterpiece, we have an experienced design team based in-store who are ready to guide you through your journey.

Explore limitless possibilities, and get hands-on with our display kitchens and range of samples to fully visualise the look and feel of your ideal space.

📍 Liskeard

Situated within HBH Woolacotts' Liskeard store on Pike Street in the centre of Liskeard, the Haven Kitchens showroom features two fitted kitchen displays that showcase two of our most popular kitchen ranges. While a designer is not present at this location, design consultations can be scheduled by appointment, and we have a team of sales staff on hand to help explore the possibilities and begin the design process.

📍 Bodmin

Our Bodmin showroom is located within HBH Woolacotts' store on Fore Street in the heart of Bodmin town centre. The Haven Kitchens showroom features four fully fitted kitchens that beautifully showcase some of our most popular ranges and designs. These striking and contrasting designs highlight the wide range of styles available, whether you prefer modern minimalism or a cosy, traditional country kitchen. While a designer is not present at this location, design consultations can be scheduled by appointment, and we have a team of sales staff on hand to help explore the possibilities and begin the design process.

📍 Barnstaple

The latest addition to Haven Kitchens & HBH Woolacotts, our new Barnstaple Superstore opened on 25th October 2025 and is located at Brannams Retail Park, Roundswell.

This showroom features 9 full kitchens on display, 4 of which are powered up and fully demonstrable, a dedicated sample room and 2 presentation areas which also showcase our ability to design and deliver bootrooms, utility areas and even media walls. Located within HBH Woolacotts Electrical Superstore, you'll also find one of the largest selections of cooking appliances and kitchen gadgets in the South West.

Our stunning showroom showcases a variety of styles, materials and designs across a wide range of prices, including 2 budget friendly kitchens from our Pure Range and 1 handmade masterpiece from our Willians & Sons offering.

We have a team of experienced designers based in Barnstaple to help explore the showroom and assist with kitchen projects

Our Simple, Seamless Kitchen Design Process

At Haven Kitchens, we make designing your perfect kitchen a smooth and enjoyable experience. By partnering with appliance experts at HBH Woolacotts and some of the best contractors in the area, our aim is to make your journey as seamless as possible, ensuring you end with a space that's both beautiful and functional.

Here's how we guide you every step of the way with our no-obligation design service:

STEP 1 HOME VISIT

We start with a visit to your home to understand how you use the space. By taking precise measurements and learning about your lifestyle, family needs and the room's features, we create a design brief tailored just for you.

STEP 2 IN-STORE PRESENTATION

Once your design is ready, we invite you to our showroom for a detailed presentation. We'll walk you through your design and cost options, while you explore the perfect appliances with the HBH team. This collaborative process ensures your kitchen design and appliance choices work together beautifully and function perfectly.

STEP 3 DESIGN REFINEMENT

At this stage, the Home Visit, initial design and one design refinement are free of charge. Once you're happy to work with Haven for your kitchen project, this will be confirmed with a 10% Design & Survey Fee which is based on the estimated cost of your project. This will cover the designer's time to further refine and enhance the design work and ultimately create your complete kitchen pack.

STEP 4 SITE SURVEY

If you wish to use our referral scheme for installation, we will work with the contractor to conduct a final site survey to double-check all measurements and ensure the design fits your space perfectly, while also addressing the practicalities of the project. As we work with, but separately to our referral partners, you will receive two quotes, one from Haven for the kitchen and materials, and one from the contractor for the installation and on-site work.

If you have your own installer and do not wish to use our referral scheme, our designer will handle the technical survey and liaise directly with you.

STEP 5 ORDER SIGN-OFF

Once you've reviewed the final design and appliance choices and you're 100% satisfied, the order will be ready to be signed off. We will provide a full acknowledgement pack with all details, and at this point delivery dates will need to be confirmed and a 40% Acknowledgement Fee is required, bringing total monies paid to 50% of the confirmed order value. With everything confirmed, we'll be ready to bring your dream kitchen to life.

STEP 6 DELIVERY

We'll be in contact a couple of weeks before your delivery date to confirm the final arrangements. The remaining 50% balance is required a minimum of seven days before your delivery date.

STEP 7 DELIVERY TO COMPLETION

Your designer will remain closely involved throughout the installation, visiting the site regularly to ensure everything is running smoothly. They'll answer any questions, address any issues that arise, and make sure the process stays on track. This continued support gives you confidence that your kitchen is being installed exactly as planned with minimal disruption. From start to finish, we'll be there to deliver the kitchen of your dreams, overcoming any obstacles along the way.

THE INTEGRATED APPROACH

From start to finish, Haven Kitchens and HBH Woolacotts work together to create a kitchen that's perfect for you. With our combined expertise in design and appliances, we ensure every decision is made with care, delivering a space that's both stunning and functional. We're here to make the entire process easy and enjoyable, so you can love your kitchen for years to come.

Installation Referral Scheme

At Haven Kitchens, we're dedicated to helping you create your dream kitchen. While we provide everything you need to design and build your perfect kitchen, we have chosen to work with local contractors on a referral basis instead of offering an in-house installation service.

Here's why we've taken this approach:

LOCAL EXPERTISE & EXPERIENCE

The contractors we recommend are local professionals with a strong reputation for reliability. These professionals specialise in kitchen and home improvement projects, ensuring that every aspect of the job is done to perfection. Furthermore, our contractors can complete all variety of works as we believe it's a better experience to have one team managing every aspect of your project.

FLEXIBILITY & CHOICE

We want to give our customers the flexibility to choose an installer who suits their needs and budget. The contractors we work with offer a range and variety of services. Should you require, we will endeavour to work with you to find the right contractor. Whether it's a simple kitchen fit or a full extension, our list of preferred contractors will be able to assist with any project.

TRANSPARENT COSTS

By separating supply and installation, we keep pricing clear and transparent. You'll know exactly how much you're spending on materials and installation without hidden charges. This allows you to budget effectively and avoid surprises.

WORKING TOGETHER

Should you decide to work with one of our referred contractors, we will work closely with them throughout your project to ensure everything runs as smoothly and efficiently as possible. This includes meeting on-site prior to signing off your kitchen to ensure all practicalities are considered, as well as having open lines of communication during the project.

YOUR DREAM KITCHEN, SEAMLESSLY DELIVERED APPROACH

At Haven Kitchens, our referral scheme is designed to give you the best of both worlds: expert craftsmanship from trusted local contractors and the flexibility to tailor your project to your needs. We ensure seamless project management, transparent pricing and ongoing collaboration to bring your dream kitchen to life with ease.

Pure Range

Our Pure range offers a selection of popular and on-trend kitchen styles, including shaker, slab, handleless and real wood options, all available in a curated range of colours

By focusing on high-demand designs and using cost-effective components, we deliver exceptional value without compromising on quality.

Made locally in the South West, the Pure range blends style and affordability, ensuring a beautiful kitchen at an accessible price. For your peace of mind, every kitchen comes with a 10-year cabinet guarantee and a 5-year door guarantee, ensuring long-lasting performance and quality.

Cabinet specification

We use only the best materials and components to build our cabinets. We work with industry leading suppliers to guarantee that our products deliver not just on quality, but on price too. All Pure units come fully assembled with the doors and the drawers fitted.

Impressions

Impressions is a door that offers fantastic value, with benefits that go far beyond its price tag. With 12 on-trend colours to choose from, including smooth finishes, stone effects, and woodgrain textures, you can pick your favourite or mix and match for a stunning two-tone kitchen. This range is perfect for modern, linear designs and works beautifully for sleek runs of base units, creating a stylish and practical space to showcase your décor.

Belsay

The Belsay door is one of the most versatile options in our collection. Whether you're going for a clean, modern look or a charming countryside feel, it's the perfect choice to bring your vision to life. Its slim frames make it easy to adapt to both styles, and you can pair it with either contemporary or classic accessories to create your dream kitchen.

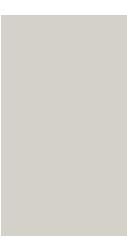

Belsay is available in a smooth, woodgrain or beaded finish, and it comes in seven stunning colours, giving you endless ways to personalise your space. The visible v-grooves add a beautiful, subtle detail, making this door a true standout in any home.

Milbourne

Milbourne is a timeless shaker-style door with a wider frame and a subtle textured finish, giving it a classic yet versatile appeal. Its wood-effect design offers plenty of possibilities, coming in a variety of sizes, shapes, and seven beautiful colours – from soft and understated Porcelain to bold and dramatic Charcoal. The range's colour palette opens up endless design opportunities, especially if you're considering a two-tone kitchen. Pairing shades like Charcoal alongside lighter tones like Porcelain or Partridge Grey, works beautifully to create a stunning balance between light and dark. Milbourne truly offers the flexibility to design a kitchen that's uniquely yours.

The Haven range is designed for those who want a kitchen that truly reflects their lifestyle. Whether you're dreaming of a sleek handleless design, a classic shaker look, or something entirely bespoke, we offer an extensive selection of colours and styles to bring your vision to life. No matter your requirements or budget, our team works with you to design a kitchen that's functional, stylish and tailored to your needs.

Using only the highest-quality materials - crafted and assembled locally in the South West - we ensure your kitchen will be both beautiful and durable. With a 25-year warranty on the cabinets and a 10-year warranty on the doors, you can be confident your Haven kitchen will remain a lasting investment for your home.

Cabinet specification

We only use the best materials and components to build our cabinets, ensuring you can enjoy your kitchen for years to come. We work with the best suppliers in the industry so that we can deliver not just on quality, but on price as well. All of our Haven units come fully assembled with fitted doors and drawers and are all built locally here in the South West.

Colour palette

Available in all our Paint to Order ranges. Foil ranges are only available in a selection of colours.

Oak stains

Oak stains can be applied to Redgate and Trevone.

This document is intended only as a guide and, as no picture can accurately convey colour representation, it is suggested you examine our products personally before purchase. Only then can you appreciate the detail of each and every component, the finishes applied and the superior quality. If your chosen finish is not on display, we recommend that you order a sample.

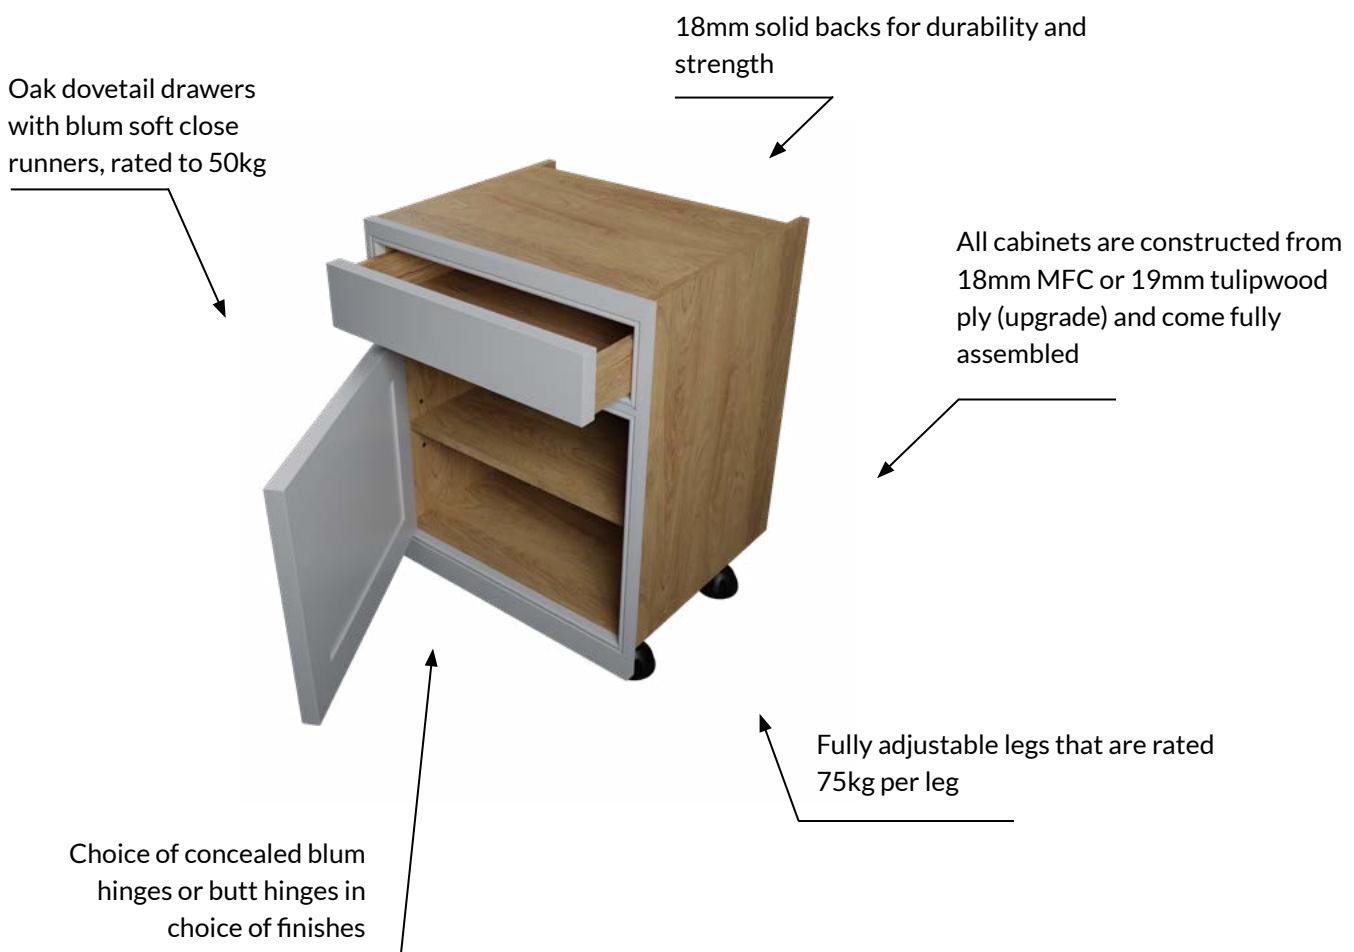

For those seeking the ultimate in bespoke luxury, Williams & Sons represents the very pinnacle of British craftsmanship. Exclusively available at Haven Kitchens, this range is crafted with a rich heritage of exceptional quality and design innovation. Each kitchen is lovingly handmade to order, combining traditional cabinet-making techniques with modern design to create timeless masterpieces.

While the range offers four main door styles, the true beauty of Williams & Sons lies in its limitless possibilities. Every design is fully bespoke, ensuring a kitchen that's perfectly tailored to your home and lifestyle. From the initial concept to the finest details, Williams & Sons delivers uncompromised quality and sophistication, creating a space that will remain a true standout for decades to come.

Cabinet specification

Our Williams and Sons cabinet is the product of generational experience, coming together in what we think is arguably one of the finest kitchen cabinets on the market. Using a combination of modern techniques along with highly skilled cabinet makers, this cabinet is produced in small numbers, with every order being meticulously manufactured with quality uncompromised.

The Lanyon

Clean lines, contemporary style.

Chamfered frames, slab doors and recessed plinths all help to complete this modern Scandinavian look. The Lanyon blends perfectly with the minimalist interiors of a modern architect-designed home, but it's also versatile and can provide a stunning, contrasting space for period properties.

WILLIAMS & SONS

PRIMED

MADE TO ORDER

Geometric tiling and bespoke under-cabinet lighting heighten the sense of sophistication.

The Lanyon

TO FINISH

We recommend dressing The Lanyon with contemporary door handles finished in rose gold or matt black to complete that mid-century modern look. It's a style that is on-trend yet elegant and understated.

The Adela

Simplicity and effortless style. Inspired by classic shaker design, the Adela has an honest and assured feel that exudes quality and solidity through it's traditionally built cabinetry. A classically elegant shaker design that gives an instant homely feel.

VS
WILLIAMS & SONS

PRIMED

MADE TO ORDER

The Adela

TO FINISH

When paired with rustic splashbacks, traditional ceramics and reclaimed materials, The Adela provides a comforting 'lived-in' feel for the heart of your home. When choosing a colour palette, we recommend strong, deep tones that work beautifully alongside copper and brass door furnishings.

The Hepworth

A kitchen that brings striking period detail to life in a grandiose style. The Hepworth takes inspiration from Georgian and Neoclassical style, featuring our most ornate, hand-crafted details and beautifully proportioned panelling.

WILLIAMS & SONS

PRIMED

MADE TO ORDER

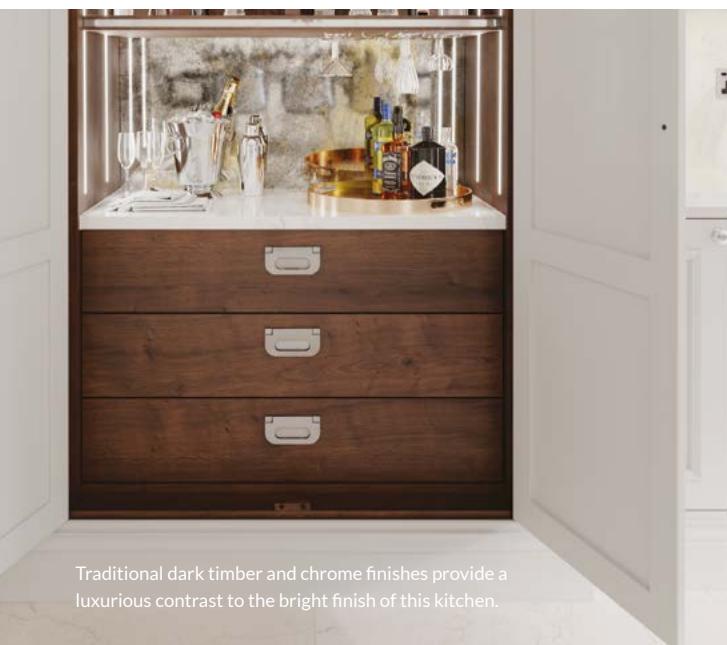

The Hepworth

TO FINISH

The Hepworth works best when finished in pastel shades and neutral off-whites like ivory, which allow its bold design features to provide plenty of impact. Contrast dark woods like mahogany and walnut with modern light fittings for a wonderfully decadent feel.

Traditional dark timber and chrome finishes provide a luxurious contrast to the bright finish of this kitchen.

The Napier

Feel at home in our classically British kitchen. The Napier represents some of the most iconic British design traditions. With its substantial legs, butcher's block worktops and deep panelled door fronts, it feels as solid as it does traditional.

PRIMED

MADE TO ORDER

Our bespoke larder units can double up as hidden breakfast areas, reducing worktop clutter.

TO FINISH

Dark paint finishes provide the perfect statement for the Napier's grand proportions and will work well alongside traditional range cookers. The warm, natural tones of oak and ash are particularly well suited for unpainted surfaces.

Kitchen Worktops

Like the icing on a cake, no Kitchen is complete without a worktop and the right worktop brings a unique feel to any kitchen space. From laminate and real wood, to porcelain, quartz and natural stone, we have access to a comprehensive range of worktop choices from a variety of suppliers so our customers can select the right worktop for their project.

Due to its durability, ease of maintenance and huge variety of options, Quartz is the industry's preferred option for premium worktops. With this in mind, we have worked with Classic Quartz to hand pick a selection of Quartz products at exclusive prices.

Pure Range Worktops

Pure Range – offers customers a small range of some of the most popular, simple and neutral Quartz finishes that are available at prices that are significantly cheaper than what would normally be associated with stone worktops. Our 'Pure Range' Quartz stones are perfect for contract jobs or projects that are on a tight budget but still want the premium finish afforded by a stone worktop.

Haven Range Worktops

Haven Range – offers customers a large selection of over 40 colour options, textures and finishes across a variety of price groups. Our Haven Range is designed to give customers a full choice of premium stone worktops, while still able to benefit from preferential prices that are exclusive to Haven customers.

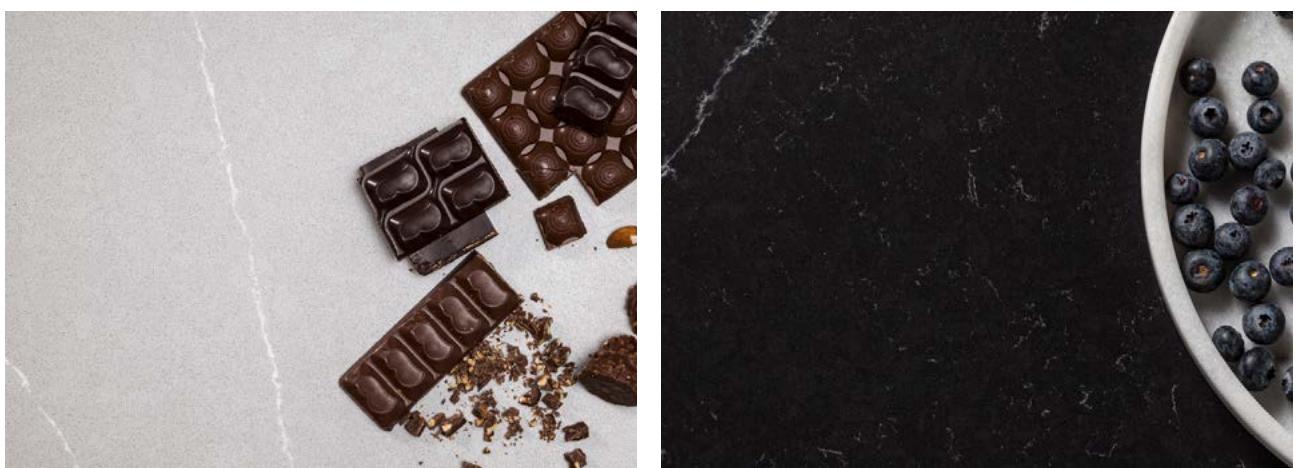

Our Barnstaple, Plymouth and St Austell showrooms have dedicated sample rooms that have the complete selection of Classic Quartz stones available for customers to browse at their leisure.

Classic Quartz Stone is one of UK's leading Quartz suppliers, holding an impressiverange of colours and designs for commercial& residential properties.

With sizes from 3000 x 1400mm up to 3200 x 1600mm and in both 20mm and 30mm thickness.

These can be used for many different areas of the homesuch as kitchen worktops, bathroomcounter tops, tiles and wet rooms.

Crafted to inspire, designed to fit your style – discover quartz and porcelain slabs made for modern living.

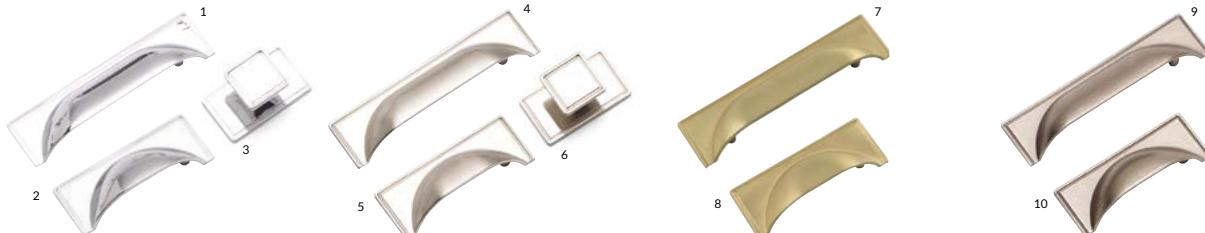

Classic Quartz Stone surfaces are non-porous, easy to maintain, and highly durable. With a 6+ year warranty on all slabs, you can count on lasting quality, expert care advice, and a complimentary after-sales cleaning kit to keep your surfaces looking like new.

Handles

Consider a variety of finishes, from polished chrome to the neutral warmth of nickel or stark contrast of black. Embrace the diverse design options, opt for square knobs, shapely cup handles or textured bar handles to name a few.

THE NAPIER

Style: In-frame Shaker Door
Frame: Cock Beading
Door: 90mm Frame
Plinth: Ogee Skirting
Colour options: Full colour
match – Supplied primed with
topcoat hand applied onsite

Care & maintenance

With appropriate care and maintenance, our furniture is designed to provide years of reliable service. To keep it in the best possible condition, please follow the simple guidelines below.

Designed for domestic use, we recommend that each area / cabinet in the room is maintained within domestic temperature and humidity levels. We recommend a temperature range of 16°C - 24°C and a relative humidity range of 40% to 60%.

Please note your guarantee may be adversely affected if used for non-general domestic environments and care and maintenance guidance is not adhered to. Details of guarantee available upon request.

INSTALLATION ADVICE

Ensure that all new-builds or newly plastered rooms have been left to environmentally stabilise prior to the installation of new furniture. Furniture must not be installed in a damp, or moisture-rich environment as it will cause undesirable movement in the joints and panels of the door. A hygrometer should be used to assess conditions.

To help minimise any potential damage to the furniture whilst you are installing it, please read and adhere to the following instructions:

- We would advise that you make an initial check to confirm that you have the correct quantity and size of fascias; you can do this by referring to the labels attached to the outer packaging.
- Ensure that you fully inspect each individual fascia prior to attaching the hinges. Claims for damage to the fascia will not be accepted after the hinges have been attached.
- If doors are supplied with a protective film on the face they must not be directly exposed to sunlight. You should remove this only after they are installed as the curing process continues for around 72 hours after the film is removed. This means the doors will be liable to scratching and other marks. You should avoid cleaning the doors for at least a few days to prevent any marks appearing on the surface.
- Do not stack the doors on their ends on any hard surface; this can cause chipping and scratching along the edge of the fascia, especially on the handle edge of ranges with an integral handle. Prior to fitting, the fascias should be stored flat, ensuring that they are not resting on any dirt or debris that may damage or mark the finish.
- Take extreme care when stacking the fascias with hinges attached to ensure that the hinges do not mark other fascias. Do not lean the fascias against one another, or against any surface without proper protection in-between.
- You should take extreme care not to put the door down with excessive force on any edge, especially the handle edge, as this will cause crushing/impact damage on these edges.
- If the fascias are attached to the carcase, then you should

carefully remove the fascias by unclipping the hinges and storing these flat in a clean safe environment away from your working area, utilising the packing materials from the units.

- Take extreme care when unpacking the fascias and do not use sharp blades to cut away the packaging.
- Where cutting/scribing décor panels and trim, you must use a sharp quality saw blade of the appropriate grade for fine-cutting, or a suitable router. Small chips can appear along the cut-edge, and so extra care must be taken to minimise the risk of chipping. Using a blunt or inappropriate saw blade will produce a poor finish, and this will not be covered by the guarantee.
- All cut edges should be sealed against moisture ingress using a suitable water-resistant sealant/adhesive prior to installation.
- When attaching the hinges, place the fascia face down on a soft, clean surface, ensuring that there is no grit, sawdust or other matter underneath that can damage the surface of the fascia whilst the hinges are attached. It is good practice to place a sheet of clean cardboard between the fascia and the flat surface prior to attaching the hinges.
- If the hinges are 'knock-in' type, use a rubber mallet to knock the hinges into the fascia without using excessive force.
- Once the hinges have been attached to a door, hang the door on the unit straight away to avoid damage. Do not stack the doors with the hinges touching other doors, as this can cause scratches or marks to the other fascias.
- On Painted Products - Any fine chips along the cut edge should be smoothed with fine grade sandpaper prior to fitting.
- All trims are supplied in long lengths and need to be cut down on-site, using the appropriate tools.
- When fitting the plinth, ensure that you check the dimensions of any adjacent appliances. On occasion, the plinth may need to be pulled forward to ensure that it clears the front of the appliance. This can be achieved by fitting blocks using off-cuts to the rear of the plinth prior to attaching the plinth clips, to step the plinth forward from its normal position.

GENERAL CARE

Heat & moisture

As with all furniture the most common problems occur due to excessive or prolonged exposure to heat and/or moisture.

- Spills and condensation on fascia should be cleaned and dried immediately. Particular attention must be paid to sink areas and wet appliances as damage caused as a result is not covered by warranty.

- Dishwasher doors should not be opened mid cycle or immediately at the end of a cycle. Damage caused by the excess steam will not be covered by warranty.
- Appliances that create steam (e.g. steamer, coffee maker, kettle, steam mop, etc.) should not be placed underneath cabinets or near units where condensation may form.
- Care must be taken when washing floors and work surfaces to prevent liquid accumulating on or adjacent to plinth and panels. These areas should be dried thoroughly after cleaning.
- Appliances that generate excessive heat such as toasters, air fryers, microwave ovens, etc, should be correctly ventilated and not placed under or near kitchen units.
- Please be careful not to puncture the foil/melamine lacquered surface of your furniture. These should be kept dry to prevent moisture ingress.

Light & colour

The colour of doors and drawer fronts may appear mismatched in colour. This apparent mismatch is sometimes the effect of differing light conditions within the room, (known as metamerism). To check your doors and fascia you should place them side by side in natural daylight for comparison.

Please note that after a period of time, it is normal for the colouring of furniture to mellow in colour. In particular, timber & light lacquered surfaces change colour and have a certain tendency to "yellow with age." This is not a manufacturing fault and is due to exposure to light. The product material, finish and the intensity of exposure will affect the rate of change. Due to this, we advise that colour change is taken into consideration when replacing or fitting new doors sometime after the original furniture has been installed, as replacements may not be an exact colour match. This also should be taken into consideration when choosing colours from samples and swatches and it is therefore recommended that samples/swatches are changed regularly.

Cleaning advice

- Periodically clean the interior and exterior surfaces of the door using a soft, damp cloth. Wipe dry all surfaces after cleaning.
- Do not use wax-furniture polish, abrasive or aggressive cleaners, bleach, or other hypochlorite (chlorine) based cleaners, multipurpose cleaners, dilutes, acetone, alcohol, solvent, or similar products on the door, as this will damage the surface. Additionally, wax and polishes leave a residue build up that is difficult to remove. Only use a 5% soap, 95% water (liquid soap) solution, wiping with a damp (not wet) cloth, finally drying with a soft, clean cloth only.
- There are a number of products available which are designed for cleaning high gloss doors, but plain water can be used for

regular cleans. Always use a lint-free soft cloth and use a circular motion to achieve a high buff. Micro-fibre cloths are perfect for achieving a high shine with little effort. High gloss doors may show fingerprints, which can be easily cleaned with a soft cloth.

- Do not expose the furniture to temperature in excess of 60°C (140°F) (Approximately the temperature of washing up water).
- Dust with a soft cloth only.
- Never use any abrasive pads or abrasive cleaners of the furniture.
- If using glass cleaner on your glazed/mirrored doors be careful not to damage the finish of the door and cabinet parts while cleaning. Do not spray cleaner directly on to the surface as this may discolour the finish of your units. Instead, spray a small amount of cleaner on to a lint free cloth or paper towel then wipe the glass/mirror.
- Ensure all cooking splashes, spills and condensation on the furniture are wiped immediately with a damp cloth; and dried immediately.
- If the surface of the product is exposed to any oil-based substance (for example olive oil, butter, margarine or cooking oil), the spillage must be wiped away immediately to prevent staining.
